

NGUYEN THANH THANH TU

224/6 Binh Quoi St., Binh Thanh Dist., HCM City | 0949 452 673 | tunguyen2209.it.work@gmail.com | github.com/TuNguyen229VN

CAREER OBJECTIVE

Software Engineering graduate with a strong foundation in React and Next.js through self-taught learning and personal projects. Seeking a Frontend Developer role to contribute to real products, learn from experienced teams, and continue growing professionally.

SKILLS

Technical Skills: HTML/CSS, Tailwind CSS, Bootstrap, JavaScript, TypeScript, ReactJS, NextJS

Database: MongoDB, MySQL, Firebase

Tools: Git, GitHub, Postman, Figma, VS Code, Vercel

PERSONAL PROJECTS

PizzaTeo — Pizza Ordering & Delivery Web App

Apr 2026 – Jun 2026

GitHub: <https://github.com/TuNguyen229VN/pizza-order-app>

Demo: <https://pizzateo.vercel.app/>

A personal full-stack application built to replicate a real-world food delivery ecosystem, featuring dedicated layouts for both Customers and Administrators.

- Designed and developed separate user experiences: a responsive customer store (menu browsing, custom combos, loyalty program) and an advanced admin dashboard with analytics visualizations (**Recharts**).
- Implemented secure authentication with NextAuth.js, role-based access control across admin API routes, and rate limiting middleware; integrated multiple localized/international payment gateways (Stripe, PayPal, MoMo, ZaloPay).
- Enabled real-time features, including live order status updates via **Pusher**, an interactive delivery map using **Leaflet.js**, and an intuitive drag-and-drop admin panel using **dnd-kit**.
- Tech Stack:** Next.js 14, React 18, Tailwind CSS, Next-Intl (i18n), MongoDB, Mongoose.

Amazon Clone

Mar 2024 – Apr 2024

GitHub: <https://github.com/TuNguyen229VN/amazon-clone-tunguyen>

Demo: <https://amazon-clone-tunguyen.vercel.app/>

A personal frontend project recreating the core shopping experience of a large-scale e-commerce platform, focused on practicing real-world UI patterns and third-party integrations.

- Built the customer-facing interface and core shopping flow using ReactJS and Material UI, including product listings, pagination, and an interactive image gallery with zoom and magnification.
- Integrated Firebase for authentication, data storage, and hosting, and implemented secure checkout with Stripe.
- Added multi-language support (i18next/react-i18next) and user feedback via toast notifications for a smoother UX.
- Tech Stack:** ReactJS, Material UI, Firebase, Stripe, axios, moment.js.

WORK EXPERIENCE

Frontend Development Intern — FPT Software (FSoft)

Jun 2021 – Aug 2021

Intern

- Edited and completed documentation for assigned tasks.
- Collaborated with the team to develop frontend components using HTML/CSS and JavaScript, ensuring responsive design and meeting sprint deadlines.

EDUCATION

FPT University

Sep 2019 – Sep 2023

B.Eng. in Software Engineering — GPA: 7.4/10
